

Please do NOT enact any national standard that is weaker than Indiana's Telephone Privacy Law. This law has been absolutely terrific by virtually eliminating unwanted solicitation calls, most of which used to come during meals, when I was trying to help my children with homework, or otherwise attempting to have undisturbed time. Prior to enactment I estimate I received an average of 1 - 2 calls per day, and now I receive about that many in a month. I entered my telephone number on the very first list, and will be very disappointed in any action that weakens this very helpful legislation.
